
THE TRADIE'S STORM-SEASON PLAYBOOK
Storm season's here.

3 rules · swipe →

RULE 1

Emergencies first.

• T3 · Emergency

Sparking. A burning smell. Water through the ceiling.

- You're alerted straight away
- The customer gets your safety advice (call 000, switch off at the main if safe)
- A callback within the window you set

The emergency steps and callback window come from your own settings.

No filtering. No waiting in a queue. The urgent ones reach you first.

RULES 2 & 3

Big jobs wait. The rest books in.

• T2 · Confirm

Switchboard upgrade, rewiring, anything $1,000+

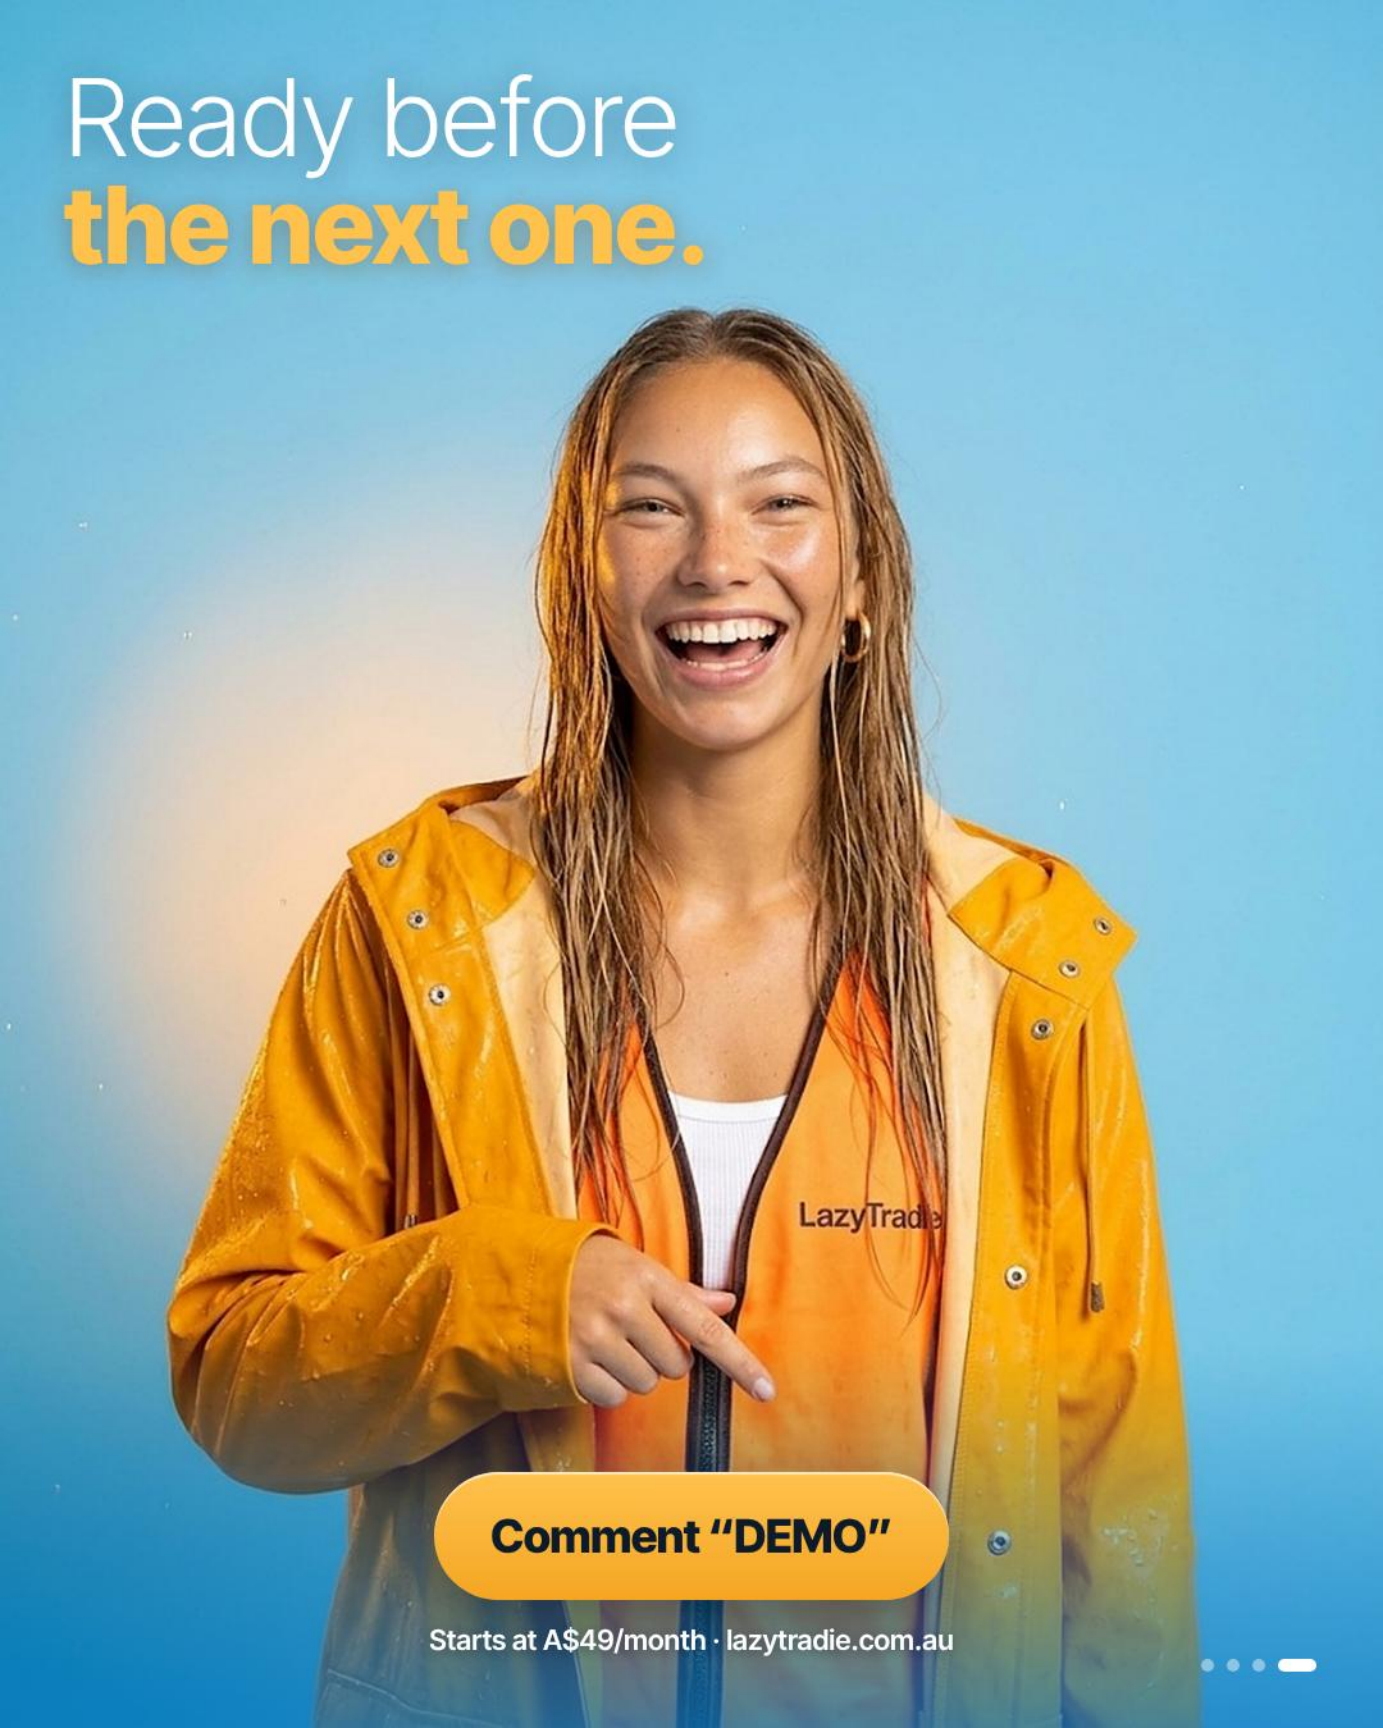

Sent to you to approve, plus anything it's unsure about. Nothing's locked in without your OK.

• T1 · Auto-book

Power point, light fitting, ceiling fan

Booked straight into a free slot in your calendar.

You decide what goes in each tier. Ruby follows your rules.

Ready before
the next one.
